

Manly Art Gallery & Museum Society Presents

EGYPTIAN MUMMIES AT THE POWERHOUSE MUSEUM

A fun day out combining art and science

TUESDAY 11th APRIL 2017

Come and see six ancient Egyptian mummies selected from the collection of the British Museum. The mummies are between 1800 and 3000 years old.

The mummies are intact, but by using three-dimensional CT X-ray scanning technology we can see inside, without having to unwrap them.

Come and find out what modern technology can tell us about who they were, how they lived and what happened to them.

In addition, the exhibition includes around 200 Egyptian artefacts for viewing to see ancient Egyptian life, art and beliefs. Your ticket also allows entry to the rest of the Powerhouse Museum after visiting this exhibition
